

Digi-IR 13/20

The perfect partner when coating wax based toners.

The optional Digi-IR unit is available for use when coating wax based toners.

This unit is placed in front of the coater and heats the toner prior to coating to ensure complete adhesion of the UV varnish to the toner. The unit can be wheeled away for different substrates.

There is no loss of quality during this procedure which is available for both 13" and 20" sizes.

Key Product Features

- Fully mobile
- Small footprint
- Allows coating of wax based toners
- Available in 13" and 20" sizes

technical specifications

Speed	n/a
Dimensions	Digi-IR 33 - L 11.8" x W 18.8" x H 35.4"
Dimensions	Digi-IR 50 - L 11.8" x W 27.5" x H 35.4"
Weight	n/a
Power requirement	240v 50/60hz

Note: the production speed varies according to substrate type
